

Metal Lube Cutting Fluid

No. 750

Product Description:

A heavy duty, general-purpose cutting oil containing high concentrations of extreme pressure and lubricity additives. These powerful additives give **Metal Lube Cutting Fluid** exceptional lubricating, cooling, and anti-weld properties. This product will provide fine micro-finishes and extend tool life over a wide range of metals. This product also contains an anti-mist package to reduce the level of suspended oil in the air.

Applications:

Metal Lube Cutting Fluid is especially recommended for use on difficult to machine metals and may be used in automatic screw machines, threading operations, lathes, mills, gun drilling, drill presses or any other machine requiring a premium heavy duty cutting oil.

Advantages And Benefits:

- *PERFORMANCE* - super concentrated E.P. package allows for effective machining of hard to cut metals
- *EXCELLENT SURFACE FINISH* - chemistry designed to produce exceptional surface finishes
- *BETTER TOOL LIFE* - effective removal of material extends tool life
- *VERSATILITY* - can be used in a wide variety of operations
- *ECONOMICAL* - low viscosity reduces consumption
- *SAFE TO USE* - anti-mist formulation reduces exposure to oil mist

Physical Characteristics:

Appearance	Light Viscous Liquid	Flash Point °F	>300
Specific Gravity	0.90	Chlorine	Present
Viscosity cSt @ 40°C	60.8 - 67.2	Sulfur	Present

**** FOR INDUSTRIAL USE ONLY ****
