

SUPER PENETRANT

TEFLON PENETRANT
AND MOISTURE REMOVER
No. 852

DESCRIPTION:

Super Penetrant is a heavy duty multi-purpose, anti-rust, anti-corrosion penetrant, lubricant, moisture remover and cleaner containing **TEFLON®** and **VYDAX®**.

Super Penetrant is a specially formulated penetrant/lubricant designed to loosen corroded parts and leave a protective lubricating film. It quickly displaces moisture and carries Teflon® and Vydax® to the point of contact where they bond to the surface areas providing wear protection.

TYPICAL OPERATING CONDITIONS:

Super Penetrant will penetrate into the threads of rusty bolts even when they are countersunk. It is a handy and quick way of maintaining satisfactory operation and/or even correcting faulty behavior of all kinds of machines and mechanisms.

FEATURES:

Super Penetrant penetrates through rust and corrosion in as little as 15 seconds, allowing fast and easy removal of rusted or seized components.

It is designed to:

Loosen and Prevent Rust
Prevent Corrosion
Displace Moisture

Clean Grease, Dust, Dirt & Sludge
Penetrate & free Nuts, Bolts, & Fittings
Provide a Heavy Duty Lubricant Film

TYPICAL APPLICATIONS:

Automobiles
Construction Equipment
Farm Equipment
Corroded Nuts & Bolts
Locking Mechanisms
Machine Shops

Power Tools
Controls
Gauges
Piping
Sleeved Cable Drives
Mills

For general purpose use in the shop, farm or factory where a lubricant and corrosion preventative is needed.
