

FOOD SAFE LUBRICANT

No. 860

NSF H-1 Certified

DESCRIPTION:

Food Safe Lubricant may be used as a lubricant, release agent or anti-rust film on equipment and machine parts in locations in which there is exposure of the lubricated parts to edible products. This product is non-toxic, odorless, and tasteless, and contains no silicones.

FEATURES:

- Convenient easy to use aerosol
- Provides a USDA and FDA approved sanitary means of lubricating dairy and food processing equipment
- USDA approved for use in federally inspected meat and poultry plants
- Contains corrosion inhibitors and anti-wear agents to extend equipment life
- A complete multi-purpose food safe lubricant

TYPICAL APPLICATIONS:

Canneries
Slaughter Houses
Bakeries
Restaurants

Seals
Containers
Slicers
Packaging Lines
Pans

Bearings
Belts
Chains
Sealers
Sorting Tables
Racks

Conveyers
Pumps
Rollers
Metering Equipment
Mixers
Dicers

The amount used should be the minimum required to accomplish the desired effect.

If used as an anti-rust film, the compound must be removed from the equipment surface by washing or wiping as required to leave the surface effectively free of any substance which could be transferred to food being processed.

This product does not contain any intentional ingredients or known trace impurities listed in the Proposition 65 regulations as materials known to the State of California to cause cancer, birth defects, or other productive harm. Furthermore, FPL certifies that these products are compliant with the VOC limitations of the California Air Resources Board Regulations for Reducing Emissions from Consumer Products as labeled
